Multiple-choice exam:	EXC 29531	Organizational Behaviour and Management		
Examination date:	06 May, 2015	09:00-10:00	Total no. of pages:	18 incl. attachments
			No. of attachments:	1
Permitted examination support material:	Bilingual dictionary			
Answer sheets:	Answer sheet for multiple-choice examinations			
	Counts 100 % of EXC 29531		Responsible department: Leadership and Organizational Behavior	

PLEASE READ THE FOLLOWING BEFORE YOU BEGIN!

- Students must themselves assure that the examination papers are complete.

- Students must provide the following information on the answer sheet:
  - ✓ **Examination code**
  - ✓ **Personal initials**
  - ✓ **ID-nr**

  The ID-nr must be recorded with both the appropriate numbers and by putting an "X" by the corresponding number in the columns below.

- Do not use pencils or pens with green ink when filling in answer sheets. Answer sheets must not be used for rough drafts.

- **All answers must be recorded with an "X" under the letter you believe corresponds with the correct answer.**

- **Cancel an "X" by filling in the box completely (boxes that are completely filled in will not be registered). "X" in two boxes for one question will be registered as a wrong answer.**

- The attached example shows you how the answer sheet would be filled in if A were the correct answer for question 1, B correct for question 2, C correct for question 3 and D correct for question 4. An "X" under E indicates that you choose not to answer question 5.

- **Your answers are to be recorded on the answer sheet. Answers written on the examination papers and not on the answer sheets will not be graded.**

- There is only <u>one</u> right answer for each question. Because the questions are weighted equally, it can be to your advantage to answer the easiest questions first.

- Wrong answers are given -1 point, unanswered questions get 0 points (indicated by an "X" next to E") and correct answers are given 3 points.

- You can keep the examination papers.

01 The process of sending and receiving symbols with attached meanings in organizations - from one person to another - is called:

A organizational communication

B exchange

C encoding

D feedback

E I do not want to answer this question

02 Communication is the:

A interpretation of symbols sent from the sender to the receiver

B process by which entities exchange information and establish a common understanding

C process of telling someone else how one feels about something the person did or said about the situation in general

D process of sending and receiving symbols with attached meanings, from one person to another

E I do not want to answer this question

03 Four functions of organizational communication are particularly important. Which of the following is **not** one of these:

A sourcing information

B developing information

C expressing feelings and emotions

D communicating roles

E I do not want to answer this question

04 Which element of the communication process encodes the intended meaning into a message?

A the decision implementer

B the consultant

C the receiver

D the source

E I do not want to answer this question

05 In communication, noise would **not** include:

A uncomfortable temperature

B construction work going on outside the building

C cultural differences

D the sender

E I do not want to answer this question

06 The sources of noise include all of the following **except**:

A semantic problems

B status effects

C cultural differences

D Feedback

E I do not want to answer this question

07 Communication which occurs at minimum cost in terms of resources expended is:

A effective

B efficient

C affective

D normal personal

E I do not want to answer this question

08 One-way messages:

A are effective

B are efficient

C are satisfying for the receiver

D always communicate the message accurately

E I do not want to answer this question

09 Effective communication occurs when:

A the receiver does as the sender says

B the intended meaning of the source is the same as the perceived meaning of the receiver

C the sender is clear and articulate

D the receiver provides feedback to the sender

E I do not want to answer this question

10 Which communication channel follows the chain of command established by the organisational hierarchy?

A formal

B informal

C upward

D Downward

E I do not want to answer this question

11 Formal communication channels:

A interfere with the effectiveness of the communication attempt

B are planned communication connections between holders of the various positions within the organization

C adhere to the organization's hierarchy

D cut across vertical chains of command

E I do not want to answer this question

12 The firm is a network of information and communication channels. There are now three categories. Which of the following is **not** one of these?

A formal channels

B external channels

C quasi-formal channels

D informal channels

E I do not want to answer this question

13 _____is the ability to control another's behaviour because the person wants to identify with the power source.

A referent power

B coercion

C influence

D Machiavellianism

E I do not want to answer this question

14 The two **basic** types of conflicts are:

A relationship and substance

B substantive and emotional

C interpersonal and inter-organizational

D intrapersonal and interpersonal

E I do not want to answer this question

15 A conflict that occurs in the form of a fundamental disagreement over ends or goals to be pursued and the means for accomplishment is known specifically as a(n)_____conflict.

A relationship

B substantive

C procedural

D Inter-organizational

E I do not want to answer this question

16 A conflict that involves interpersonal difficulties that arise over feelings of anger, mistrust, fear etc. are known specifically as a(n)_____ conflict.

A relationship

B emotional

C substantive

D Intrapersonal

E I do not want to answer this question

17 Intrapersonal conflict occurs:

A between groups in an organization

B within the individual

C between managers and subordinates

D between two or more individuals

E I do not want to answer this question

18 Specifically, intergroup conflict occurs:

A between organizations

B between groups in an organization

C within the individual

D between a supervisor and one of his/her subordinates

E I do not want to answer this question

19 Inter-organizational conflict occurs:

A between two firms

B between groups in an organization

C between formal and informal organizations only

D between managers and subordinates

E I do not want to answer this question

20 Moderate levels of conflict tend to:

A have little or no effect on performance

B have a positive effect on performance

C have a negative effect on performance

D improve work-flow interdependency

E I do not want to answer this question

21 High levels of conflict tend to:

A have no effect on performance

B have a positive effect on performance

C have a negative effect on performance

D improve work-flow interdependency

E I do not want to answer this question

22 Which indirect conflict management technique assigns a person to manage conflict between groups that are prone to conflict?

A decoupling

B linking pins

C authoritative command

D Buffering

E I do not want to answer this question

23 The zone of indifference is a:

A lack of motivation to follow superior's directives

B high level of motivation to follow a superior's directives

C willingness of the subordinate to follow directives without critical evaluation or judgement

D superior ignoring certain mistakes of the subordinates

E I do not want to answer this question

24 Which of the following conflict management styles is highly cooperative but unassertive?

A competition

B compromise

C accommodation

D collaboration

E I do not want to answer this question

25 Effective negotiation occurs when:

A substance issues are resolved and action plans are implemented

B substance issues are resolved and relationships are maintained

C good decisions are made and action plans are implemented

D a wise decision is made

E I do not want to answer this question

26 Integrative negotiation usually leads to:

A enlarging the pie

B claiming positions of pie

C one party dominating over the other

D lose–lose outcome

E I do not want to answer this question

27 Best alternatives to negotiated agreement (BATNA) is associated with:

A classic two-party negotiation

B attitudinal foundations of integrative agreements

C informational foundations of integrative agreements

D distributive negotiation

E I do not want to answer this question

28 The bargaining zone in negotiation is:

A the action setting for the negotiation

B the range between minimum and maximum reservation points

C based on increasing the available resources or 'pie'

D based on making claims and staking out positions

E I do not want to answer this question

29 The ability to get someone to do something or to make things happen in a specific way is called:

A influence

B coercion

C Machiavellianism

D power

E I do not want to answer this question

30 In the experiments on obedience at Yale University:

A only a very few subjects would shock another person to a dangerously high level

B the majority of subjects would shock another person to a dangerously high level

C most people rejected the apparent authority of the laboratory experimenter

D a few subjects would shock another person to a dangerously high level

E I do not want to answer this question

31 Introducing a new product is an example of a change called:

A radical

B frame breaking

C incremental

D Unplanned

E I do not want to answer this question

32 Change that results in a major make-over of the company and/or its component systems is known as:

A frame-bending change

B radical change

C reorganizational change

D creative change

E I do not want to answer this question

33 Which of the following statements best describes incremental change?

A It occurs randomly without a change agent's direction

B It occurs as a result of specific efforts on its behalf by a change agent

C It is intense and all-encompassing

D It builds on existing operating methods and seeks to enhance or extend them in new directions

E I do not want to answer this question

34 New technologies and new systems are specific examples of:

A radical change

B incremental change

C unplanned change

D informational change

E I do not want to answer this question

35 Which of the following statements best describes unplanned change?

A It occurs at random without a change agent's direction

B It occurs as a result of specific efforts on its behalf by a change agent

C It is intense and all-encompassing

D It is the discrepancy between an actual and a desired state of affairs

E I do not want to answer this question

36 Which of the following statements best describes planned change?

A It occurs as a result of specific efforts on its behalf by a change agent

B It is intense and all-encompassing

C It builds on existing operating methods and seeks to enhance or extend them in new directions

D It is the discrepancy between an actual and a desired state of affairs

E I do not want to answer this question

37 Lewin´s three phases of change are:

A unfreezing, refreezing and evaluating

B unfreezing, changing and refreezing

C planning, implementing and evaluating

D unfreezing, modifying and refreezing

E I do not want to answer this question

38 Phase One, unfreezing, includes:

A creating a felt need for change, minimising resistance to change

B reinforcing outcomes and evaluating results

C changing people, tasks, structure and technology

D making constructive modifications

E I do not want to answer this question

39 Improper refreezing results in:

A long-term internalisation

B change that is abandoned

C change that is completely implemented

D temporary complete compliance

E I do not want to answer this question

40 Which of the following is the power base for rational persuasion?

A rewards

B expertise

C punishments

D Legitimacy

E I do not want to answer this question

41 A rational persuasion strategy assumes that:

A people have complex motivations

B behaviour is influenced by sociocultural norms

C people are influenced by logic

D people are motivated primarily through self-interest

E I do not want to answer this question

42 The change strategy that tries to command change through formal authority is:

A incremental

B radical

C rational persuasion

D top-down

E I do not want to answer this question

43 An escalating commitment is a:

A commitment to stick to a proven course of action

B tendency to continue with a course of action despite negative feedback

C tendency to continue with a course of action until results on its success are available

D decision made using classical decision theory

E I do not want to answer this question

44 Please mark the change strategy that attempts to bring about change by identifying or establishing values and assumptions so that support for the change naturally emerges:

A incremental

B radical

C rational persuasion

D shared power

E I do not want to answer this question

45 An attitude or behaviour that reflects a person's unwillingness to make or support a desired course of action is known as:

A a performance gap

B resistance to change

C a stressor

D Distress

E I do not want to answer this question

46 Incremental change is:

A change that results in a major make-over of the organization

B change that occurs more frequently and less traumatically as part of an organization's natural evolution

C change that is fairly radical

D change that takes place involuntarily

E I do not want to answer this question

47 Planned change is change that:

A occurs randomly or spontaneously

B happens as a result of specific efforts on the part of the change agent

C results in a major make-over of the organization

D change that occurs more frequently and less traumatically as part of an organization's natural evolution

E I do not want to answer this question

48 Offering information and encouragement is a good way to minimize resistance to change stemming from:

A fear of the unknown

B need for security

C contrasting interpretations

D threatened vested interests

E I do not want to answer this question

49 Delaying change and awaiting a better time is a good way to minimize resistance to change stemming from:

A fear of the unknown

B no felt need for change

C poor timing

D threatened vested interests

E I do not want to answer this question

50 Education and communication should be used as a strategy to overcome resistance to change when:

A people lack information

B other people have power to resist

C a person or group will lose something because of change

D other methods would not work

E I do not want to answer this question

51 Resistance to the change agent is most likely to occur with a change agent who:

A has low emotional involvement in the change

B is not an employee of the company

C has different characteristics from key persons involved in the change

D uses a rational persuasion strategy

E I do not want to answer this question

52 What strategy could be employed where people are resisting the change because there will be adjustment problems?

A Try the change on a step-by-step basis

B Try giving facilitation and support

C Bring in expert testimony

D Continue with the change until the resistance stops

E I do not want to answer this question

53 When using explicit or implicit coercion to deal with resistance to change, a manager is most likely to:

A use force to get people to accept change

B buy off leaders of resistance to gain their support

C help people see the logic of the change

D offer incentives to actual or potential resistors

E I do not want to answer this question

54 Planned change often assumes that:

A Change is often best unplanned

B Environmental scanning is unnecessary and time consuming

C The future is predictable and there is an end stage to be reached

D The future is unpredictable, so contingency planning is best

E I do not want to answer this question

55 Child discusses the concept of "emergent change" and links this to:

A the role of the Chief Executive Officer, and their decision-making capability

B the range and size of change

C resistance to change

D the strategic plan

E I do not want to answer this question

56 According to Marris, organizations that go through change need to allow employees:

A To have access to resources needed to undertake change

B To have their say on strategic change issues

C Time to digest the changes, as they would if they endured a family bereavement

D To gain the competences required within a change process

E I do not want to answer this question

57 Which of the following is **not** a consideration that Williams, Dobson and Walters recommend when attempting to change organizational culture:

A Change the people in the organization

B Changing behaviour

C Changing the corporate image

D Change the corporate strategy

E I do not want to answer this question

58 Groupthink is:

A believing that most problems can be solved

B an advantage of group decision making

C when members in highly cohesive groups demand conformity and become unwilling to criticise group members' ideas

D group decision making carried out by all members

E I do not want to answer this question

59 Force-coercion strategy:

A tries to influence change by identifying or establishing values and assumptions that support change

B tries to influence change by persuading people through the strategic planning process

C tries to influence change through informal processes of promises or threats

D tries to command change through the formal authority of legitimacy, rewards and punishments

E I do not want to answer this question

60 According to Miles, radical change is:

A mission led, total-system based, and requires sustained organizational learning

B strategy led, total-system based, and requires sustained organizational learning

C vision led, total-system based, and requires sustained organizational learning

D goal led, requiring sustained organizational learning

E I do not want to answer this question
