EXAMINATION QUESTION PAPER - Multiple choice

EXC 29531
Organizational Behaviour and Management

Department of Leadership and Organizational Behaviour

Start date:	15.05.2019	Time 09.00
Finish date:	15.05.2019	Time 10.00

Weight:	Pass / Fail
Total no. of pages:	18 incl. front page
Answer sheets:	Answer sheets for multiple-choice examinations
Examination support materials permitted:	Bilingual dictionary

PLEASE READ THE FOLLOWING BEFORE YOU BEGIN!

- Students must themselves assure that the examination papers are complete.

- Students must provide the following information on the answer sheet:
  - ✓ **Examination code**
  - ✓ **Personal initials**
  - ✓ **ID-nr**

  The ID-nr must be recorded with both the appropriate numbers and by putting an "X" by the corresponding number in the columns below.

- Do not use pencils or pens with green ink when filling in answer sheets. Answer sheets must not be used for rough drafts.

- **All answers must be recorded with an "X" under the letter you believe corresponds with the correct answer.**

- **Cancel an "X" by filling in the box completely (boxes that are completely filled in will not be registered). "X" in two boxes for one question will be registered as a wrong answer.**

- The attached example shows you how the answer sheet would be filled in if A were the correct answer for question 1, B correct for question 2, C correct for question 3 and D correct for question 4. An "X" under E indicates that you choose not to answer question 5.

- **Your answers are to be recorded on the answer sheet. Answers written on the examination papers and not on the answer sheets will not be graded.**

- There is only <u>one</u> right answer for each question. Because the questions are weighted equally, it can be to your advantage to answer the easiest questions first.

- Wrong answers are given -1 point, unanswered questions get 0 points (indicated by an "X" next to E") and correct answers are given 3 points.

- You can keep the examination papers.

1 The process of choosing and implementing structural configuration is called:

A planning

B control

C organizational design

D staffing

E I do not want to answer this question

2 The formal structures of organizations may be shown in:

A an organization chart

B a horizontal diagram

C a matrix depiction

D a labour assignment chart

E I do not want to answer this question

3 The combination of resources, knowledge and techniques that creates a product or service output is called:

A the environment

B technology

C formalisation

D organizational design

E I do not want to answer this question

4 The set of cultural, economic, educational and legal-political forces in a given geographical area is called the _____ of an organization.

A environmental complexity

B environmental interdependence

C specific environment

D general environment

E I do not want to answer this question

5 Goals that define the types of businesses an organization is in are called:

A mission statements

B output goals

C systems goals

D primary beneficiary goals

E I do not want to answer this question

6 In order to increase survival potential, organizations create:

A process controls

B matrix specialisations

C system goals

D line and staff units

E I do not want to answer this question

7 Rules and procedures:

A are written statements of organizational purpose

B are flexible enough to accommodate unique conditions

C allow for individual discretion without direct clearance from a higher-level authority

D describe in detail how a task is to be performed

E I do not want to answer this question

8 Control involves all of the following <u>except</u>:

A measuring results

B taking corrective action

C comparing results with goals

D selecting manpower

E I do not want to answer this question

9 Common signs of too much control include all of the following <u>except</u>:

A too much confusing of documentation with action

B too much focus on one goal to the exclusion of others

C too many realistic expectations

D too much rigidity and inflexibility

E I do not want to answer this question

10 The degree to which the authority to make decisions is restricted to higher levels of management is called:

A departmentalization

B coordination

C centralization

D control

E I do not want to answer this question

11 The degree to which authority to make decisions is given to lower levels in an organization's hierarchy is referred to as:

A bureaucracy

B decentralisation

C line units

D centralization

E I do not want to answer this question

12 A manager with a wide span of control is most likely to have:

A Centralized control of her/his employees

B few subordinates and low levels of authority

C many subordinates

D few subordinates

E I do not want to answer this question

13 Staff personnel:

A directly link clients and/or suppliers to the organization

B conduct the major business that directly affects the organization

C work independently of line personnel

D include such departments as public relations and accounting in a manufacturing firm

E I do not want to answer this question

14 When action is needed quickly in a crisis situation, which design is typically most appropriate?

A conglomerate

B free form

C organic

D mechanistic

E I do not want to answer this question

15 Which of the following characteristics apply to an organic organization?

A centralised authority

B ambiguous division of authority

C many rules and procedures

D formal methods of coordination and control

E I do not want to answer this question

16 Which of the following is a characteristic of a mechanistic organization?

A many rules and procedures

B ambiguous division of labour

C informal coordination and control

D emphasis on coordination

E I do not want to answer this question

17 Departmentalization for division does which of the following?

A groups individuals and resources by product service, client, territory or legal entity

B groups individuals and resources by skill, knowledge and action

C groups individuals and resources by the goals of an organization

D provides written documentation of work rules, policies and procedures

E I do not want to answer this question

18 Grouping resources into departments by skill, knowledge and action is known as a_____ pattern.

A functional

B divisional

C vertical

D matrix

E I do not want to answer this question

19 Which of the following does the textbook list as a disadvantage of functional structure?

A it is difficult to retrain new managers

B it often yields confusing task assignments

C too much time and effort spent by management

D too little emphasis on technical affairs

E I do not want to answer this question

20 Grouping of individuals and resources in the organization by products, services, clients, territories and/or legal entities is an example of which form of horizontal specialisation?

A divisional departmentalization

B functional departmentalization

C matrix

D mixed form

E I do not want to answer this question

21 The aerospace solution to the problem of a management structure placing emphasis both on technical development and on product development is called:

A functional pattern of departmentalization

B departmentalization by function

C matrix organization

D coordination organization

E I do not want to answer this question

22 The unity of command principle is not achieved in which form of departmentalization?

A functional

B divisionalization by product

C divisionalization by customer

D matrix

E I do not want to answer this question

23 Bureaucracy is the theory proposed by:

A Weber

B Thompson

C Burns/Stalker

D Woodward

E I do not want to answer this question

24 Possible problems of bureaucracy include which of the following?

A inflexibility

B Under-specialisation

C rules specifying minimum requirements

D dominance by the leaders

E I do not want to answer this question

25 A design configuration which involves one or two ways of specializing individuals and units is called a _____ design.

A bureaucratic

B longitudinal

C simple

D mechanistic

E I do not want to answer this question

26 Which design is appropriate for a huge corporation that produces many different products and services in many different industries?

A conglomerate

B quasi-autonomous

C simple structure

D machine bureaucracy

E I do not want to answer this question

27 The vertical emphasis of machine bureaucracy facilitates:

A job satisfaction

B control

C higher profits

D coordination across divisions

E I do not want to answer this question

28 Mechanistic design is characterised by:

A high job satisfaction

B effective use of human resources

C creative solutions to problems

D inflexibility

E I do not want to answer this question

29 In which design are managers most likely to run their own businesses and compete against one another for resources?

A adhocracy

B simple

C professional bureaucracy

D divisionalized

E I do not want to answer this question

30 A greater need for flexibility in production has led to a(n) _____ organization structure?

A mechanistic

B organic

C core-ring

D divisional

E I do not want to answer this question

31 The three levels of cultural analysis highlighted in the textbook concern:

A observable culture, shared values and common assumptions

B stories, rites and rituals

C symbols, myths and stories

D cultural symbols, myths and sagas

E I do not want to answer this question

32 The methods that organizational groups develop and teach to new members are called:

A shared values

B common assumptions

C observable culture

D founding stories

E I do not want to answer this question

33 The taken-for-granted truths refers to which level of cultural analysis?

A shared values

B common assumptions

C belief systems

D observable culture

E I do not want to answer this question

34 Which level of analysis deals with a description of an awards banquet?

A shared values

B belief systems

C philosophy

D observable culture

E I do not want to answer this question

35 _____are unique patterns of values and philosophies within a group that are not inconsistent with the dominant culture of the larger organization or social system.

A observable cultures

B countercultures

C organizational cultures

D subcultures

E I do not want to answer this question

36 Patterns of values and philosophies that outwardly reject those of the larger organization or social system are called:

A counter cultures

B common assumptions

C corporate cultures

D subcultures

E I do not want to answer this question

37 Corporate culture refers to:

A an extreme form of counterculture

B a culture that has grown organically along with an organization's history

C an attempt by managers to deliberately create and mould organizational culture

D an attempt by managers to implement payment by results

E I do not want to answer this question

38 The creation of a collective identity and the means of matching methods of working and living together is internal:

A culture

B bonding

C differentiation

D Integration

E I do not want to answer this question

39 Effective communication occurs when:

A the receiver does as the sender says

B the intended meaning of the source is the same as the perceived meaning of the receiver

C the sender is clear and articulate

D the receiver provides feedback to the sender

E I do not want to answer this question

40 Which communication channel follows the chain of command established by the organisational hierarchy?

A formal

B informal

C upward

D downward

E I do not want to answer this question

41 Formal communication channels:

A interfere with the effectiveness of the communication attempt

B are planned communication connections between holders of the various positions within the organization

C adhere to the organization's hierarchy

D cut across vertical chains of command

E I do not want to answer this question

42 The firm is a network of information and communication channels. There are now three categories. Which of the following is <u>not</u> one of these?

A formal channels

B external channels

C quasi-formal channels

D informal channels

E I do not want to answer this question

43 The two <u>basic</u> types of conflicts are:

A relationship and substance

B substantive and emotional

C interpersonal and inter-organizational

D intrapersonal and interpersonal

E I do not want to answer this question

44 A conflict that occurs in the form of a fundamental disagreement over ends or goals to be pursued and the means for accomplishment is known specifically as a(n)_____conflict.

A relationship

B substantive

C procedural

D Inter-organizational

E I do not want to answer this question

45 A conflict that involves interpersonal difficulties that arise over feelings of anger, mistrust, fear etc. are known specifically as a(n)_____ conflict.

A relationship

B emotional

C substantive

D intrapersonal

E I do not want to answer this question

46 Intrapersonal conflict occurs:

A between groups in an organization

B within the individual

C between managers and subordinates

D between two or more individuals

E I do not want to answer this question

47 Specifically, intergroup conflict occurs:

A between organizations

B between groups in an organization

C within the individual

D between a supervisor and one of his/her subordinates

E I do not want to answer this question

48 Inter-organizational conflict occurs:

A between two firms

B between groups in an organization

C between formal and informal organizations only

D between managers and subordinates

E I do not want to answer this question

49 Moderate levels of conflict tend to:

A have little or no effect on performance

B have a positive effect on performance

C have a negative effect on performance

D improve work-flow interdependency

E I do not want to answer this question

50 High levels of conflict tend to:

A have no effect on performance

B have a positive effect on performance

C have a negative effect on performance

D improve work-flow interdependency

E I do not want to answer this question

51 Which indirect conflict management technique assigns a person to manage conflict between groups that are prone to conflict?

A decoupling

B linking pins

C authoritative command

D buffering

E I do not want to answer this question

52 An internal organizational competition usually results in a:

A win–win outcome

B lose–lose outcome

C win–lose outcome

D broader bargaining zone

E I do not want to answer this question

53 Which of the following conflict management styles is highly cooperative but unassertive?

A competition

B compromise

C accommodation

D collaboration

E I do not want to answer this question

54 Effective negotiation occurs when:

A substance issues are resolved and action plans are implemented

B substance issues are resolved and relationships are maintained

C good decisions are made and action plans are implemented

D a wise decision is made

E I do not want to answer this question

55 Integrative negotiation usually leads to:

A enlarging the pie

B claiming positions of pie

C one party dominating over the other

D lose–lose outcome

E I do not want to answer this question

56 Best alternatives to negotiated agreement (BATNA) is associated with:

A classic two-party negotiation

B attitudinal foundations of integrative agreements

C informational foundations of integrative agreements

D distributive negotiation

E I do not want to answer this question

57 The bargaining zone in negotiation is:

A the action setting for the negotiation

B the range between minimum and maximum reservation points

C based on increasing the available resources or ‘pie’

D based on making claims and staking out positions

E I do not want to answer this question

58 Mark below the right definition of Distributive negotiation:

A negotiation in which the focus is on the merits of the issues and both of the parties involved are trying to enlarge the available "pie" rather than stake claims to certain portions of it

B negotiation in which the focus is on "positions" staked out or declared by the parties involved, who are each trying to claim certain portions of the available "pie"

C negotiation in which the focus is on the merits of the issues and one of the parties involved is trying to enlarge the available "pie" rather than stake claims to certain portions of it

D system and output goals

E I do not want to answer this question

59 Two goals are at stake in any negotiation. These are _____. and _____. Mark the two missing words among the alternatives below.

A result goals and relationship goals

B substance goals and ambitious goals

C substance goals and relationship goals

D revolutionary

E I do not want to answer this question

60 Introducing a new product is an example of a change called:

A radical

B frame breaking

C incremental

D unplanned

E I do not want to answer this question
